

3830

Eye-/facewash, wall mounted

Each spray head has an internal flow control and a filter to remove impurities. Operated by a push plate, stay-open ball valve. The eye/facewash is self-draining. Delivered with pipes in galvanised steel, brass valve and wall bracket in aluminum. The water supply should be designed for a minimal flow of 28 l/min at a pressure of 2,4 bar. Supplied in one of two alternative styles with the possibility of connecting the inlet water connection facing up or down (rotated 180°).

Mount the unit approx. 1100 mm from the floor and up to the top of the eye wash spray head.

Emergency signs are enclosed with each safety station.

The product is also available in stainless steel: 3830-00

Note! If you would like an alternative connection (rotated 180°), please specify when ordering.
