

3867-00

Stainless steel eye-/facewash, wall mounted, with hand-held drench hose

Each spray head has an internal flow control and filter to remove impurities. Operated by a push plate, stay-open ball valve. The eye/facewash is self-draining. Delivered with collecting bowl in powder-coated stainless steel, stainless steel (SS316) valve and wall bracket in aluminum. The water supply should be designed for a minimal flow of 28 l/min on the eye-/facewash and 14 l/min on the drench hose, at a pressure of 2,4 bar.

Mount the unit approx. 1100 mm from the floor and up to the top of the eye wash spray head.

Emergency signs are enclosed with each safety station. The product is also available in galvanised steel: 3867
